

# Professional Resume

**China Dungfelder, Project Manager**

## Overview

Ms. Dungfelder brings detailed technical expertise and experience to each TMD project as a result of managing task work from the detailed data capture; comprehensive multivariate market, service, and operations analysis; GIS mapping; and coordination of stakeholder outreach. This task work was undertaken for a broad range of transit systems including Des Moines (IA), Niagara Frontier Transportation Authority (NY), Orange County Transit Authority (CA), Indianapolis Public Transportation (IN), and Norwalk (CA). She graduated from the University of California San Diego in Urban Studies and Planning.

## Transportation Planning & Operations

Ms. Dungfelder has served in management, supervisory, and senior technical roles on the following projects:

- **DART (Des Moines, IA) Comprehensive Operational Analysis**  
– Deputy Project Manager
- **OCTA Transit System Study** – Deputy Project Manager
- **OCTA Go Local Project S & V (Subregion 3)** – Project Manager
- **RCTC Strategic Analysis of Express Bus Service for Western Riverside County** – Project Manager
- **Niagara Frontier Transportation Authority (Buffalo) COA**  
– Deputy Project Manager
- **IndyGo Comprehensive Operational Analysis**  
– Deputy Project Manager
- **Norwalk Transit Line-by-Line Analysis** – Deputy Project Manager
- **Santa Clarita Commuter & School Day Service Analysis**  
– Deputy Project Manager
- **Summit Stage SRTP** – Field data collection

As a transit planner for multiple projects, Ms. Dungfelder has analyzed transit performance data, contributed to bus (fixed route and paratransit) and rail service restructuring, as well as assisting in the preparation of the Market Assessment and Service Analysis reports. She regularly coordinates data analysis and mapping tasks, and helps design public presentations. Her efforts aim at improving service for current and future transit riders, along with providing financial stability.

Ms. Dungfelder has also managed multiple ridechecks and data collection efforts. Her efforts include preparation and organization for data collection, on-site management for field data collection, analysis of data through GIS and SAS programs, and the development of service restructuring options and service recommendations. Recently Ms. Dungfelder served as Project Manager for the OCTA Go Local Project S & V (Subregion 3) and as Deputy Project Manager for the Des Moines COA as well as OCTA Systemwide Transit Study, IndyGo COA and NFTA transit service restructuring projects. Through her work on the Des Moines COA, Ms. Dungfelder played a pivotal role in developing a project framework and guiding principles that lead to the develop of short, mid, and long term recommendations. For the OCTA Systemwide Transit Study, Ms. Dungfelder assisted team members with an in-depth review of OCTA's ACCESS paratransit service which resulted in the development of cost-effective recommendations.
