

# Professional Resume

**Marie Lewis, Senior Manager**

## Overview

Marie Lewis has a strong professional and academic background in transportation planning and operations. She joined TMD in 2007 and has worked on transit service redevelopment, market demand analysis, and transit policy development. She graduated with a B.A. in geography from UCLA and received a Masters of City and Regional Planning with a concentration in Transportation from the University of Pennsylvania.

## Transportation Planning & Operations

Ms. Lewis has supervisory and technical roles in numerous projects at TMD, including most recently:

- **SamTrans Comprehensive Operational Analysis** – Project Manager
- **Santa Monica Big Blue Bus Line by Line Analysis** – Project Manager
- **Broward County Comprehensive Operational Analysis** – Deputy Project Manager
- **San Joaquin RTD Comprehensive Operational Analysis** – Deputy Project Manager
- **Denver RTD On-Call Service Planning** – Project Manager
- **San Francisco MTA Transit Effectiveness Project** – Project Coordinator

For these efforts, Ms. Lewis directed project progress and played a part in almost every aspect of the planning process, from data collection and analysis to the preparation and presentation of final reports.

As a transit planner and project leader for several systems across the country, Ms. Lewis has had roles in collecting and analyzing transit performance data, researching market demand, developing transit service standards, and recommending industry best practices. Her efforts aim at improving service for current and future transit customers, along with providing financial stability and larger market share for agencies.

## Relevant Experience

Previous experience at Kittelson and Associates, Inc., a civil engineering firm, introduced Ms. Lewis to in-depth traffic operations, parking studies, and highway design projects. Ms. Lewis' tenure at Shapouri and Associates, a land use consulting firm, also provided opportunity to expand her skills in the areas of land use planning, public outreach, and the land development approval process.

While attending the University of Pennsylvania, Ms. Lewis studied transit planning and engineering with renowned professor Dr. Vukan Vuchic, and gained knowledge of transit modes and technologies, operations, and scheduling.
